HOW TO USE THE DIRECTORY

Refer to a person's name in Who's Who, which is followed by the firm's name.

The firm's name in the List of Hongs gives the business address and other information.

A private address in the Street Directory gives the position of the house, the name of the street in Chinese, etc.

A person's name in the Residential Directory is followed by the resident's private address.

Special Attention is drawn to the Agency List following the Shanghai Hongs. This contains about 3,500 agencies held by Shanghai firms. If you wish to find the agent of some particular motor-car, electrical battery or engine, refer to this list, which will give you the local agent's name. A charge of \$3 is made for the insertion of each Agency.

Reputation

A RELIABLE PRINTER provides first-class equipment and capable men to ensure speedy production and publication of a client's work. Much confidential information, in the shape of Reports and Accounts of public companies, are in a printer's office long before they reach shareholders. Printers with a reputation scrupulously observe the confidence entrusted by their clients to their care. Therefore it is advisable to patronize a printer with a reputation to lose.
